

TANG Yong

Prof. TANG Yong is an outstanding marine geophysicist, as a member of the Commission on the Limits of the Continental Shelf (CLCS), and now serves as the Director of the Research Center of Exclusive Economic Zone and Continental Shelf, the Second Institute of Oceanography, Ministry of Natural Resources of China. Currently, he is a Professor and Doctoral Supervisor at Shanghai Jiao Tong University and Zhejiang University respectively, and is also an adjunct Professor at Ocean University of China, China University of Geosciences and Southwest University of Political Science and Law.

Having been engaged in the research on the delineation of the outer limits of the continental shelf beyond 200 nautical miles for nearly 20 years, Prof. TANG Yong has accumulated extensive experience in this field and is proficient in continental shelf delineation. As the Chief Scientist and Project Leader in joint cruises and research projects held by China and some African States, he made valuable contributions to the international cooperation on marine geophysics and delineation of continental shelf. Prof. TANG is also the Project Leader in various projects under the National Key R&D Program, the National Natural Science Foundation and the National High Technology R&D Program. In addition, Dr. TANG presides over a number of projects and sub-projects under delineation of Continental Shelf Program, Global Change and Air-Sea Interaction Project, China Ocean Research and International Cooperation Program. He also participated in more than 10 expeditions including those under China Ocean Research Project.

Up to now, Prof. TANG Yong has published more than 40 papers and 7 monographs on continental margin and the outer continental shelf beyond 200 nautical miles. He is also the owner of 7 patents and software copyrights related to the delineation of the outer continental shelf. Prof. TANG has been selected into 151 Talent Engineering of Zhejiang Province, China and High-level Leading Talents in Scientific & Technological Innovation of Ministry of Natural Resources, China.
